Auto-adjust jaw height = rapid clamping

A range of applied force & height in one clamp: the power to be in position fast

Features:

- 1 Auto-adjustment of the jaw height**
Self adjusts to variations in workpiece height while maintaining clamping force.
- 2 Adjustable clamping force**
The integrated clamping force adjustment screw can vary the applied clamping force in a range.
- 3 Adaptable base plate:**
Holes sized and spaced for easy mounting in metric & imperial.
- 4 Large ergonomic handle**
Soft insets for maximum comfort.

Pipe clamp, traditional style (PC-2)

- Used in woodworking applications for edge gluing of multiple pieces
- Large clamping surface
- ACME threaded screw
- An economical alternative to the bar clamp
- Virtually limitless clamping capacity determined by the length of pipe used

Features and benefits at a glance:

- 1 **Foot assembly** stabilizes clamp
- 2 **Extra high base** – finger-saving clearance from work surface
3. **Cast jaws** for durability
4. **Smooth action spindle with Hex head***
